

KRISH GUPTA

Ghaziabad, Uttar Pradesh

+91 7465982627 krish23153106@akgec.ac.in LinkedIn GitHub LeetCode Portfolio

Professional Summary

Software Engineer and Computer Science undergraduate with hands-on experience building AI-powered and backend applications using Java, Node.js, Express.js, React.js, and MongoDB. Experienced in REST API development, API integration, automation workflows, secure authentication, and integrating AI/LLM capabilities into application solutions. Strong foundation in Data Structures and Algorithms, Object-Oriented Programming, and System Design, with an interest in cognitive process automation, AI agents, and enterprise technology solutions.

Education

Ajay Kumar Garg Engineering College, Ghaziabad <i>B.Tech in Computer Science and Engineering</i>	2023 – 2027 CGPA: 8.15
Colonel's Brightland Public School, Agra <i>Senior Secondary (Class XII), CBSE</i>	2022 90%

Experience

Training and Placement Cell, AKGEC <i>Student Coordinator</i>	May 2025 – Present Ghaziabad
- Coordinated recruitment operations for 500+ students across multiple engineering streams, managing placement databases, schedules, and candidate communication. - Streamlined student-recruiter communication and scheduling workflows, improving coordination and reducing scheduling conflicts during campus recruitment drives. - Collaborated with recruiters, faculty, and student teams to coordinate end-to-end execution of campus hiring processes and technical assessment activities.	
Slum Swaraj Foundation <i>HR Ambassador</i>	2024 – Present Remote
- Coordinated volunteer onboarding and team activities for educational outreach initiatives, ensuring effective communication and task execution. - Collaborated with management and volunteer teams to streamline operational workflows and support successful execution of community programs.	

Projects

AI-Generated Interview Tool Full Stack Developer React, Node.js, MongoDB, AI APIs	Mar 2026
- Designed an AI-powered platform to analyze resumes and job descriptions, generating personalized technical and behavioral interview questions. - Implemented JWT-based authentication and built ATS score evaluation with actionable resume improvement suggestions. - Integrated AI APIs for dynamic question generation and skill-based learning recommendations. - Engineered scalable full-stack architecture and optimized responsive UI using React and Tailwind CSS. Live: Demo GitHub: Code	
E-Commerce Platform Full Stack Developer React.js, Node.js, Express.js, MongoDB	Feb 2026
- Built a full-stack e-commerce platform with REST APIs for users, products, carts, orders, and admin operations. - Implemented JWT authentication, RBAC, and OTP verification for secure user access and role-based workflows. - Integrated payment processing, order tracking, product reviews, and automated order workflows. - Designed modular backend services with Express.js and MongoDB for efficient API and database operations. Live: Demo GitHub: Code	

Technical Skills

Languages: Java, JavaScript, SQL
Frontend: React.js, Vite, Tailwind CSS
Backend: Node.js, Express.js, REST APIs, JWT, RBAC
Databases: MongoDB, MySQL
Core Concepts: DSA, OOP, System Design, Authentication, Authorization
Tools & Cloud: Git, GitHub, Postman, Docker, Vercel, Render

Certifications & Achievements

Oracle Certified Professional (OCP): Oracle Autonomous Database Cloud 2025 (Valid till Oct 2027)
AICTE — IBM SkillsBuild AI Automation & Intelligent Solutions Internship — BharatCares – Successfully completed the AI Automation & Intelligent Solutions
Secured **1st Rank** in Blind Coding Competition at IMS Ghaziabad TechFest, demonstrating strong problem-solving skills.
Solved **550+ Data Structures and Algorithms (DSA)** problems on LeetCode and GeeksforGeeks, covering trees, graphs, dynamic programming, recursion, and greedy algorithms.
