

KRISH GUPTA

Ghaziabad, Uttar Pradesh

+91 7465982627 ✉ krish23153106@akgec.ac.in [LinkedIn](#) [GitHub](#)

Professional Summary

Full Stack Developer with experience building scalable web applications using React.js, Node.js, Express.js, and MongoDB. Skilled in developing RESTful APIs, implementing secure JWT-based authentication, and integrating AI APIs for intelligent systems. Strong foundation in Data Structures, Algorithms, and System Design with a focus on performance optimization and user-centric solutions.

Education

Ajay Kumar Garg Engineering College, Ghaziabad

B.Tech in Computer Science and Engineering

2023 – 2027

CGPA: 8.12

Colonel Brightland Public School, Agra

Senior Secondary (Class XII), CBSE

2022

90%

Experience

Training and Placement Cell, AKGEC

Student Coordinator

May 2025 – Present

Ghaziabad

- Coordinated recruitment operations and maintained placement database for 500+ students across multiple engineering streams.
- Streamlined student-recruiter communication and scheduling processes, reducing conflicts and improving overall workflow efficiency.
- Facilitated mock interviews, technical sessions, and resume workshops to strengthen candidate preparation and placement readiness.
- Collaborated with recruiters and internal teams to ensure seamless execution of campus hiring processes.

Slum Swaraj Foundation

HR Ambassador

2024 – Present

Remote

- Led onboarding and coordination of student volunteers for NGO-led educational outreach initiatives.
- Improved communication between management and volunteers, enhancing operational efficiency and program execution.
- Supported planning and execution of social initiatives, contributing to community engagement and outreach.

Projects

AI-Generated Interview Tool | Full Stack Developer | React, Node.js, MongoDB, AI/LLM APIs

Mar 2026

- Designed an AI-powered platform to analyze resumes and job descriptions, generating personalized technical and behavioral interview questions.
- Implemented JWT-based authentication and built ATS score evaluation with actionable resume improvement suggestions.
- Integrated AI/LLM APIs for dynamic question generation and skill-based learning recommendations.
- Engineered scalable full-stack architecture and optimized responsive UI using React and Tailwind CSS.
- Live:** [Demo](#) **GitHub:** [Code](#)

Banking Ledger System | Full Stack Developer | Node.js, Express, MongoDB

Feb 2026

- Architected a secure double-entry ledger system supporting account management and transaction processing.
- Implemented MongoDB transactions with atomic commits to ensure data consistency and rollback safety.
- Designed idempotent transaction handling to prevent duplicate financial operations.
- Built JWT-based authentication with RBAC and token blacklisting for secure authorization.
- Optimized real-time balance computation using MongoDB aggregation pipelines.
- Live:** [Demo](#)

Technical Skills

Languages: Java

Frontend: React.js, Vite, Tailwind CSS, Responsive Design

Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control (RBAC)

Databases: MongoDB (Aggregation, Transactions, Indexing), MySQL

Core Concepts: Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), System Design, Authentication, Authorization, Idempotency

Tools: Git, GitHub, Postman, VS Code

Deployment & Cloud: Vercel, Render, Firebase

Certifications & Achievements

Oracle Certified Professional (OCP): Oracle Autonomous Database Cloud 2025

(Valid till Oct 2027)

Secured **1st Rank** in Blind Coding Competition at IMS Ghaziabad TechFest, demonstrating strong problem-solving skills

Solved **350+ Data Structures and Algorithms (DSA)** problems on LeetCode and GeeksforGeeks, covering trees, graphs, dynamic programming, recursion, and greedy algorithms
